CPM BIBLE COLLEGE OBJECTIVES, GOALS AND ASSESSMENT METHODS

Institutional Learning Objectives

The administration and faculty aspire to achieve the mission of CPM Bible College through seven learning objectives. A student graduating from CPM Bible College will:

1. Know the Bible thoroughly
2. Interpret the Bible with sound exegesis
3. Understand the major doctrines of the Bible
4. Recognize God's unfolding plan of redemption in Church and world history
5. Students will be well equipped with skills to serve the Church and impact the world
6. Students will be well equipped with a commitment to Christ-like leadership for serving the Church and impacting the world.
7. Students will be well equipped for a lifetime of learning

Mission Goals

What are we trying to accomplish?

CPM Bible College exists to provide biblical education to develop Christlike leaders who are well-equipped to serve the Church and to impact the world.
1. Develop students to have a Biblical worldview based on a thorough knowledge and understanding of Scripture.
2. Equip students to think critically and to support their conclusion with quality research.

3. Develop students with effective communication skills in writing and speaking.
4. Cultivate students to have a life-long pattern of service in the local church from a strong Biblical foundation.
In order to reach the goals of the institution there are several objectives, which are utilized as a means to assess the effectiveness of the institution in accomplishing the goals. Each goal of the institution has specific objectives the institution seeks to accomplish.

Goal #1: Develop students to have a Biblical worldview based on a thorough knowledge and understanding of scripture.
Cognitive objective: Summarize the purpose of each book in the Bible
Affective objective: Develop a passion for studying scripture
Behavioral objective: Apply biblical truths in everyday life

Goal #2: Equip students to think critically and to support their conclusion with quality research
Cognitive objective: Evaluate different theological schemes
Affective objective: Develop a passion to study theology
Behavioral objective: Integrate theology with the complexities of life

Goal #3: Develop students with effective communication skills in writing and speaking.
Cognitive objective: Construct well written research papers and speeches with stellar delivery
Affective objective: Develop an appreciation of the art of writing and speaking
Behavioral objective: Devote to ongoing personal development in writing and speaking

Goal #4: Cultivate students to have a life-long pattern of service in the local church from a strong Biblical foundation
Cognitive objective: Analyze the function of the local church
Affective objective: Develop a passion to revitalize declining churches
Behavioral objective: Pursue ministry opportunities within the local church

Assessment Methods

1. Course Exams

As a means to measure the effectiveness of the institution, the professors are required to give exams and quizzes throughout their courses. The results of the exams and quizzes given by the professors serve as an indicator of the progress made by the students. It is expected that an exam will be administered during Mid-Terms and Finals.

2. Standardized Tests

Standardized tests will be utilized to assess the academic endeavors of the institution. These tests allow the institution to observe the academic progress of each student among their peers within the institution and with students from other institutions of Biblical higher education. The results of these tests also serve as a means for measuring the effectiveness of the institution.

3. Surveys

Surveys are utilized by the institution in order to receive input from the students regarding their overall satisfaction of the Bible College. It is important to create an environment for our students that is conducive to their learning experience.
